

EMIHS 5-minute Lineup Drill

What is a 4th party caller? (and 1st, 2nd, 3rd)

1st Party Caller

The patient is the caller.

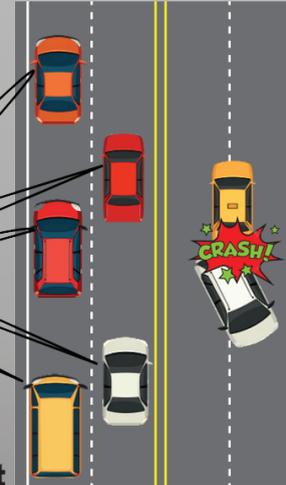

2nd Party Caller

Someone who is actually with the patient or is intimately familiar with the patient and their *current* condition/situation

3rd Party Caller

Hello, 911?
...
No, of course I didn't stop.

Someone who both does not know the patient and is not on scene; "single caller passerby" is the prime example of this scenario

4th Party Caller

Interconnected professional entities who transfer requests for EMS/Fire needs. Prime examples are the police side of ECC requesting EMS, Security/Fire alarm/medical monitoring companies
